

Hola amigos,

For those wondering what happened to Mireya's family (the Colombian family that many of you helped us help last Christmas), we have VERY GOOD NEWS:

Last 1<sup>st</sup> July they finally moved in to their house, the one that was built with your help!

The reason why it took 6 months was because unfortunately we didn't have enough money to help her with the doors/windows and with the installation of the toilet and the electricity, so she applied to the local government for help... which never arrived.

Then, on 13<sup>th</sup> May we at Condor Spanish Academy got this email:

Hola - I've just sent you a donation via electronic transfer for your most impressive and wonderful cause (I am not one of your students). What a great idea, you deserve to be congratulated for it, and I hope my donation helps make the Escobar family's life a little easier. Cheers, David B.

His kind donation couldn't have happened at a better time.

We immediately transferred the money to Colombia, contacted the right people to do the job (once again Don José helped us for a very small salary), got the materials and FINISHED what we had started last December 2007.

Below, some of the photos of their house. They just seem like completely different people now.

Once again, MUCHAS GRACIAS to all of you who made Mireya's family's life a better life!

Hasta pronto,

CONDOR SPANISH ACADEMY
